

Brainstorming & Idea Prioritization Template

Date	30 March 2026
Team ID	
Project Name	Credit Card Approval Prediction
Maximum Marks	3 Marks

Step 1: Brainstorm and Idea Listing

Each team member lists out as many ideas as possible without judging them at this stage.

S.No	Team Member	Idea / Suggestion	Category	Group No.
1	Chakali Vasanthi Chakali Vasanthi	Use Machine Learning (Random Forest/XGBoost) to predict whether a credit card application should be approved based on applicant data.	Core Predictive Modeling	1
2	Telugu Gnanesh	Build a user-friendly web interface (React/Flask) where applicants can submit their details and instantly check credit card approval eligibility.	Frontend & UX	2

3	Boya Kurakula Shanthi	Implement an automated credit scoring engine using financial records and alternative data sources for applicants with limited credit history.	Risk Assessment Feature	1
4	Shaik Abdulla Basha	Develop a secure Admin Dashboard for bank officers to review flagged applications, monitor approval rates, and manage customer records.	Admin Analytics	3
5	Saisoumeswari Sreevari	Integrate an AI chatbot to explain credit card approval decisions and provide personalized suggestions to improve eligibility.	Customer Support	4

Group No.	Final Idea	Feasibility (High/Medium/Low)	Importance (High/Medium/Low)	Priority	Selected (Yes/No)
----------------------	-------------------	--	---	-----------------	------------------------------

1	ML Credit Card Approval & Credit Scoring Engine: Train predictive models to automate credit card approval decisions and assess applicant risk.	High	High	1	Yes
---	--	------	------	---	-----

Step 2: Idea Prioritization

Rate each grouped idea on feasibility and importance, then select the final idea(s) to move forward with.

2	Secure Web Application Interface: A responsive web portal where users can submit applications and instantly check their credit card approval status with secure data handling.	High	High	2	Yes
---	---	------	------	---	-----

3	Banker Analytics Dashboard: A dashboard for banks to review applications, approve or reject requests, monitor approval trends, and analyze customer risk profiles.	Medium	High	3	Yes
---	--	--------	------	---	-----
