Customer Journey Map

Phase of Journey	Stage 1 Discover & Check Eligibility	Stage 2 Apply for Credit Card	Stage 3 Get Approval & Next Steps
Actions	- Visits Credit Card Approval website/app. - Enters basic details (income, employment, age, credit score, etc.). - Clicks on "Check Card Eligibility".	- Fills detailed credit card application form. - Uploads required documents (KYC, income proof, etc.). - Submits the application. - Waits while the system verifies details.	- Views credit card approval prediction and recommendation. - Reviews predicted approval probability and reasons. - Proceeds with application or improves profile based on suggestions.
Touchpoint	- Home/Landing page. - Eligibility checker form. - Income, credit score sliders/dropdowns.	- Credit card application form. - Document upload section. - Backend verification & AI model processing.	- Result dashboard. - Approval prediction & recommendation panel. - Download/Share report option.
Customer Thought	'Can I get my credit card approved?' 'Is my income and credit score enough?' 'I hope the eligibility check is accurate.'	'I hope my details are correct.' 'How long will it take to get a result?' 'Will my credit card be approved?'	'What is the likelihood of approval?' 'Why am I eligible/ineligible?' 'What can I do to improve my chances?'
Customer Feeling	- Curious and hopeful. - Interested and engaged. - Wants a quick and reliable check.	- Anxious while waiting. - Hopeful for approval. - Wants transparency and security.	- Relieved and satisfied if approved. - Motivated to improve if not approved. - Confident with clear guidance.
Process Ownership	- Frontend Developer (UI/UX) - Backend Developer (API) - Data Scientist (Eligibility Logic)	- Backend Developer (Data Validation) - AI/ML Engineer (Model Processing) - DevOps (System Operations)	- Data Scientist (Prediction & Insights) - Frontend Developer (Dashboard) - Support Team (User Assistance)
Opportunities	- Improve UI for better user experience. - Add credit score integration. - Provide instant chatbot support.	- Reduce verification time. - Improve document validation. - Handle edge cases and errors.	- Show detailed reasons for approval/rejection. - Provide tips to improve eligibility. - Allow PDF report & email summary.
