

Communication

Date	30 June 2026
Team ID	
Project Name	Credit Card Approval
Maximum Marks	1 Mark

Effective communication is essential for a successful project demonstration. This document outlines the communication strategy used within the team and with stakeholders throughout the project lifecycle, including how updates, issues, and feedback were managed.

Communication Plan

#	Type	Frequency	Channel	Participants	Purpose
1	Team Standup	Daily	Discord / Zoom	None	Align task checklist & review progress on model training and UI.
2	Progress Update	Weekly	GitHub PRs	Developers	Code review, feature branching, and main branch merges.
3	Issue / Bug Discussion	As Needed	Slack	None	Discuss and fix credit risk prediction API bugs and data leakage issues.
4	Stakeholder Review	Bi-Weekly	Google Meet	Evaluators /	Milestone review, model accuracy metrics checkups, and feature verification.
5	Final Demo Rehearsal	Once	Google Meet	None	Dry-run demonstration of the approval workflow and presentation flow.

Communication Challenges & Resolutions

#	Challenge Faced	Resolution / Action Taken
1	Coordinating front-end design and back-end integration.	Defined API payloads and JSON credit application contracts early in the lifecycle.
2	Debugging database concurrency threads for high-volume applications in Flask.	Configured SQLAlchemy scoped session managers to handle parallel applicant data writing securely.
3	Resolving Git merge conflicts on the core financial database schema (schema.sql).	Adopted clean Git rebase workflows and strict schema migration controls.
